Above you can see the very latest proof of the quality being produced through Dr. Vandersanden's breeding programme. A case where the very best has produced even better, with a 1st National, leading the field from a staggering 71,450 pigeons, more than the birdage of 10 combined UK National races!

For Sale direct from the Champions!

With both pride and confidence, I am able to offer pigeons bred direct by Dr. Vandesanden from the 1st National winners and Ace Pigeons at BIFS. In many cases the Champions have been mated to a direct child of another 1st National or Ace Pigeon. Considering the small number of these pigeons racing in the U.K. at this moment, their success rate is very impressive to say the least, with numerous National successes being reported by some very good fanciers. Reports also show that these pigeons are being used to great effect to cross with pigeons of other strains, where quality to quality is obviously the guideline being followed. **Direct children from the Champions are available from £300 to £1,000** depending on parentage. Having visited Dr. Vandersanden for over 10 years now, I have much more detail on this fabulous gene pool of Champions than is possible to display in an advert. Genuinely interested fanciers can contact me on the numbers below if they wish for more information or they can find further detail on www.elimarpigeons.com by clicking on the icon for **Parkinson & Wilkinson**. I also have the permission of most fanciers who are already winning with these pigeons in the U.K. to disclose their successes.
