Auctioneer’s comment:- I consider it a great honour to auction pigeons this year on behalf for who surely must be considered as one of the great Icons of the our sport Dr Henk DeWeerd. Known all over the world for his expansive knowledge of pigeon health, he surely has seen many Champion pigeons go through his hands. A better judge of a pigeon you will search hard to find. A super draft of pigeons have personally been selected by Henk to include the likes of “Gaston Van Den Wouwer” without any doubt the strain many are now after, just check Pipa Jewels In The Sky Hall of Fame All Time Average Prices where Gaston comes in

2nd with an average of 10,640 Euro. Also in the sale will be a select draft of Janssen's direct from the greats at Interpalomas Lofts, a family crafted together by Henk and his late father Piet who both had an outstanding life long friendship with the Bros, also the best of Henks Gaby Vandenabeeles going back to many of the greats plus much much more including direct children from Provincial and National Winners. Without doubt a first and a sale not to be missed where you will have the opportunity of meeting Dr Henk DeWeerd who will be in attendance. **Adie McCormick**
