# Introduction

It has been my pleasure over the past several years to offer updates and some analysis of one of our sports favorite sons, Gaby Vandenabeele. We need to pause, recognize and hail the very great talents that have preceded us in making this sport the worldwide phenomena it is and promises to be. Without the interactions of Hansennes, Wegges, Sions, Vanbraunes and many others with rock doves, etc, we would not have a sport to participate in. Gaby Vandenabeele is of this ilk.

Readers can now survey results in their own area, continent and find the remarkable impact of the Gaby Vandenabeele family of birds. Other articles have featured and discussed racing strategies, breeding strategy, birds etc. The information is found in English, Chinese, Dutch, Thai and other languages. ([www.guestsyndicatelofts.com](http://www.guestsyndicatelofts.com); PIPA, Heart of England and others).

The person, Gaby Vandenabeele, is open about his birds, passionate, fair minded and extremely honest.

To gain some insight into the scope of the Vandenabeele victories this writer asked Gaby from which countries he had heard of victories. He mentioned that it was impossible to say which countries but that he had references from all over the world including Europe, the Americas- USA, South America, Canada, Africa, Australia, Asia- China, Japan etc. Gaby himself is not interested in championships. His family of birds, however, have won such all over the world including A&R Desaer of Ruiselede, Belgium 2<sup>nd</sup> Champion of Belgium KBDB Long Distance 2009 and 2010 1<sup>st</sup> Champion of Belgium KBDB Long Distance. Norbert Ally, Aarsele 2010 General Champion of Belgium KBDB. Wolfgang Roeper, Germany General Champion of Germany 2010. Gevaert Lannoo 2<sup>nd</sup> National Ace Pigeon Youngsters Middle Distance KBDB and others. In terms of prize money Gaby estimates that it is reasonable to accept that that the Kleinen offspring are responsible for winning several millions of dollars all over the world. With children and grandchildren of the Kleinen Gaby believes that prizes won exceed 10,000 prizes. Readers should consider their own race sheets in their own localities and then extrapolate. Consider that Gaby won 2<sup>nd</sup> SAMDR 2010 and his bloodlines took 2<sup>nd</sup>, 3<sup>rd</sup> and 30<sup>th</sup> January 2011. Gaby blood took 2<sup>nd</sup> places in the final Tenerife races 2009 and 2010 to mention but a few. Other top money prizes were taken in Thailand by Gaby blood.

THE WINNERS DESCRIBED

As can be seen Gaby, himself, is a world class competitor over every dimension of the sport in his chosen areas of competition; short, middle and one day long distance events that enter into the 500 mile category. These include local, region, provincial, zone and national races. These results are a repeat of what has been recorded over the past decade or more.

Gaby has provided the pedigrees of his **first two arrivals in every 2010 race**. While way too much to entirely place in this writing, the following summary is provided about these arrivals starting with ring year 2007.

## CONCLUSIONS 2010

The above summary identifies Gaby's first two birds to loft over 17 contests. As a matter of statistics Gaby based birds were among the top two birds to his lofts 85% of the time. There were 5 non Gaby birds that clocked among the top two 2 birds. The results demonstrate that Gaby is not a "purist" but truly seeks top performers outside of his culture to add back to his core family of the Kleinen line and has done so since 1982, 29 years. Given this it is fair to say that Gaby has a fully matriculated family of birds that is very dynamic. The evidence is clear that Gaby has access to the best lines available internationally.

## LOOKING TO THE FUTURE

Gaby has liberally sought the best of the best from key lofts in Belgium, Netherlands, France and others to bring into his colony. These introductions are tested in his own racing teams as well as well as the breeding loft. Another crucial feature of the search for the ever better is from Gaby's own loft and proven subjects by others of Gaby's bloodlines. This broad context by Gaby leads to the Gaby lines' wide portability into diverse environments.

## GABY FRIEND & SPECIALIST RIK COOLS & FAMILY

Rik, Heleen (dau), Mieke (wife), Pieter (son)

The reader should again refer to prior articles at the above mentioned sites and others for previously provided information. 2010 saw Rik continue his previous successes from his Gaby lines and others he is testing. Rik is a full time teacher, his wife works full time and he has two children who are students. This makes for a very busy fellow pursuing his passion which is extraordinary continuing success with his line of pigeons. His birds have had forged victories for others in the USA, Germany, Netherlands, Taiwan China and Hungary. He tests new bloodlines 2 times with his breeders. He prefers to acquire birds from his locality that may beat his. He prefers birds with Gaby bloodlines in them. His own base bloodlines include Aske, Fryda and Aagje that have also presented themselves with great success in the Vandenabeele loft. He is building his own family around the famous "Bliksem" the extraordinary grandson of Wittenbuik that requires no further description. Rik has 6 children from Bliksem and all have bred 1<sup>st</sup> prize winners in the very difficult West Flanders competition and beyond. Rik competes in the short, middle and one-day long distance races that approach 500 miles.

# SOME RIK COOLS FOUNDATION BIRDS

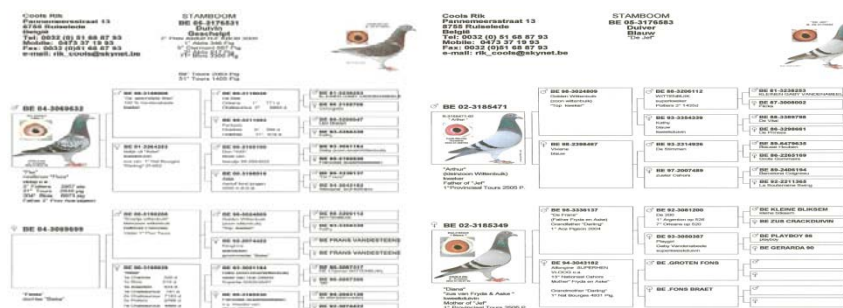

These foundation hens are present breeding hens in the Gaby and Cools breeding lofts. They include Dagmar first row 2<sup>nd</sup> from left sister to Rik Cools champion Bieke 7 times first. Agje last bird from left top row. Bieke first bird left bottom row. Kaatje second from left bottom row and Darling last bird second row.

One of the factors that make our sport successful and portable is the link between the very rich and those of modest means. Success is a function of talent. So it is with Gaby and Rik. The respect that they are held with in Belgium and worldwide is its own form of wealth. This has increased over the three decades of the Vandenebee line.

The lofts of Rik Cools illustrate modesty and functionality. It is the place where his birds call home and demonstrate a superior culture.

To be observed is that the emphasis is on quality and not quantity.

### The Breeding Loft

Both Gaby and Rik look forward to the 2011 racing season and a new group of 2011 babies as they have had an excellent breeding season to date. As the 2011 season commences the Vandenabeeles are already taking their place at the very top of race sheets world-wide.
