Peter has many years of experience and believes that if he had to start over again he would be back in the same position within at least three years. One thing is for certain, he would definitely use *Orego-Stim*® Pigeon Liquid as even though he doesn't believe in magic tonics he swears by *Orego-Stim*® Pigeon Liquid and has been using it since it first came on the market three years ago.

Peter says: 'I swear by *Orego-Stim*® Pigeon, to be honest. I'd seen it advertised so when I went for my corn one day about two or three years ago I took a smell of it and it really cleared my throat. I thought I'd give it to the pigeons and I've been using it ever since.'

As many of you will be aware Joop is a very successful fancier in Holland and if I were to list all of his results it would take up the whole page. But Joop has given me permission to let you all know that he has had a very successful start to this season, in their first race competition race this season they have won the following prizes 1-2-3-5-6-7-8-10-11-15-16-19. Joop would like to thank Meriden for developing *Orego-Stim*[®] Pigeon and says that it really is a super product.

Fantastic Results In 2007

A.W. Latham and Son have improved their results in 2007 compared with 2006 and they put it down to using *Orego-Stim*[®] Pigeon. In 2006, A.W. Latham achieved 8 x 1st places in Club and 3 x 1st places in Federation. In 2007, they increased the number of Club wins to 10 and in the Federation they had 4 x 1st places.

Two of the best results A.W. Latham achieved this season were:

1) Newton Abbot race on 08.09.07 - 162 miles – 1st, 2nd, 3rd, 4th, 5th, 6th Club (Trent Valley House H.S) 185 birds. Coventry and District South Road Federation – 1st, 2nd, 3rd, 4th, 5th, 6th, 9th Federation 975 birds.

Mark of A.W. Latham recently went to Belgium where he visited a lot of the top fanciers. Mark (pictured above) holding 'Kannibal' belonging to Dirk Van Dyck. Mark would like to thank the following for their advice and views: Chris Balson of Bristol, his best friend the late Fred Cashmore of York and John Gladwin of Formula 1 Lofts, Leigh on Sea.

John Brownlee 1st And 2nd Picauville

The first Channel race in the North Derbyshire South Road Federation this season was from Picauville, with 1,116 birds competing.

Pictured above: John Brownlee, just like me he believes in natural products. Many thanks to Adrian Duggins for writing this week's article and to Ron Duggins for taking the photo.

The winner taking 1st, 2nd and 8th was my good friend, that great fancier from Youlgrave, John Brownlee, who is once again having a fantastic season, his winners are two 4 year old Geveart x Janssen widowhood cocks both big winners over the last few seasons, winning over 7 firsts each, in the last two seasons he has competed in and won 19 races in the Youlgrave Club, never been beaten, also many top federation positions in the first 10 most weeks. Where he races to there is no drag, he is in a small club, the farthest club in the west. He only sent 4 birds to Picauville and 3 were in the first 8 positions and the fourth he never clocked in. However it would have been in the first 15 if he had.

John only races 12 widowhood cocks, but they all have to win prizes. It was a pleasure to handle his birds, they are all in super condition and will be winning many more fed prizes this season. I introduced John to *Orego-Stim*[®] Pigeon last season and he has used it ever since then with even greater success. He says his birds are always in top condition, and on Friday nights when they are sent to the races fanciers comment on their silky feathers and general good condition. To win like this he must have good birds, but they must also be in super condition. Why don't you give *Orego-Stim*[®] Pigeon a try and see for yourselves?

Sharing Secrets Is The Key To Success

Mr John Russell from South Yorkshire is a well known professional breeder of racing pigeons. He has bred many winners since he started using *Orego-Stim*[®] Pigeon three years ago. John was one of the many positive respondents to our request for customer feedback on the 11th May 2007. John was very keen for us to share his view of the product and believes that everyone should be let in on the secret!

Dear Sir,

I have read your article requesting feedback on your product *Orego-Stim*.

I must say I have been very fortunate indeed in using your product for nearly 3-years, and I must honestly inform you that it is the best product that has come on to the market for a lot of years.

It is a natural product that keeps my birds in top condition all year, I breed a lot of birds for a lot of fanciers, and who have reported lots of top winners and I put it down to your product, because when rearing it keeps the birds in top condition and assists in the youngsters immune system, which results in top healthy youngsters.

I would not alter your product in any way, and I will always use it and always recommend it, I would not be without it.

Thank you
yours faithfully
J. Russell

There is a policy at Dreadlock Lofts not to use any antibiotics at all. "We believe the flier forms an actual dependency as much as the bird, with regular blind treatments using antibiotics. This is where we find *Orego-Stim*[®] Pigeon to be the most reliable product. It keeps our birds free from loose and wet droppings, with remarkable recovery rates after tough races.
